

There's never been a children's hospital like this before!

Delaney / Patient since 20XX

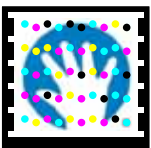

The expansiveness of this hospital is as impressive as the wonders it holds. Onsite clinical research expedites breakthrough discoveries from the research labs to the patient's bedside. Sharing the medical school campus of Northwestern University Feinberg School of Medicine allows for fantastic collaboration with adult care physicians and researchers. All part of an awe-inspiring vision to make Chicago the healthiest place in the nation for kids. **PREPARE TO BE AMAZED.**

You've never seen a children's hospital this amazing!

Lahela / Patient since 20XX

The tallest children's hospital in the world equipped with state-of-the-art medical technology designed only for kids. Our new location allows critically ill newborns to be near their moms, since there is a bridge connecting it to Northwestern Memorial's Prentice Women's Hospital. Together, we offer families the largest neonatal intensive care units in Illinois staffed with world-class specialists. All part of an awe-inspiring vision to help make Chicago the healthiest place in the nation for kids. **PREPARE TO BE AMAZED.**

You've never seen a children's hospital like this one!

Sophia / Patient since 20XX

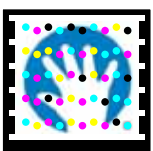

Walk through the door and you'll immediately feel how different this hospital will be for kids. Incredible creative and healing spaces – like a bamboo garden, a real fire truck and even a tree house! From the life-sized whales hanging in the lobby, to the breathtaking views from all private rooms, it's all part of an awe-inspiring vision to make Chicago the healthiest place in the nation for kids. **PREPARE TO BE AMAZED.**
